GET ALERTED:

- The [Emergency Alert System](#) is a public warning system that requires all television and radio stations, cable, and satellite service providers to relay messages during local, state, and national emergencies. You've probably heard this system go off with some loud beeps and the familiar phrase, “This is a test of the Emergency Broadcast System... If this had been an actual emergency...”
- [Wireless Emergency Alerts](#) are emergency messages sent by government authorities through your mobile/cell phone carrier. They will send texts about extreme weather, AMBER alerts for child abductions, and presidential alerts during a national emergency.
